

Community Partnership & Communications Policy & Procedure

Fun Station Day Care strives to build positive relationships with the schools it serves by communicating with school personnel regularly, sharing information about our OSC & daycare program & supporting school events.

- The schools our children attend will be provided with a list of children that attend the daycare or OSC programs.
- Parents will be given the opportunity to consent to information sharing between the center and their child's school. The basis for sharing information is that there is reasonable belief that the information shared is in the best interests of the children.
- Day to day information as well as information regarding child guidance strategies may be shared with children's teachers to promote consistent behavior management strategies between the OSC, the school and the home. COMMUNITY We will work to identify partners in the local and global community.
- Community resources will be made available to families who require additional support or information.
- The center will strive to build working relationships between community organizations that can support the development of children in the daycare and OSC programs. These could include, but are not limited to Edmonton Public Library, Alberta Health Services, Parent Link, local recreational facilities and Inclusive Child Care.
